PROFESSIONAL SUMMARY

Tech-savvy and results-driven Full Stack Developer and IT Technician with experience in web development, technical support, hardware troubleshooting, and digital business operations. Skilled in building responsive and scalable web applications using HTML5, CSS3, JavaScript, React.js, Next.js, Node.js, Express.js, MongoDB, and SQL. Experienced in diagnosing hardware/software issues, supporting end users, and delivering practical technology solutions that improve productivity and user experience. Strong communication, problem-solving, and adaptability skills with a passion for innovation and continuous learning.

WORK EXPERIENCE

Chief Executive Officer (CEO) / Lead Technical Specialist

Ojkeh Technology, Lagos, Nigeria ***April 2021 – Present***

- Founded and independently manage a technology business providing web development, device repair, technical support, and digital gadget & accessories retail.
- Design and develop responsive websites and web applications for individuals and small businesses using modern web technologies.
- Create digital brand materials including logos, flyers, and promotional designs for clients and business visibility.
- Diagnose and repair hardware and software issues on smartphones, laptops, and desktop systems.
- Perform software installations, operating system upgrades, device configuration, and troubleshooting services.
- Provide technical assistance and customer support while maintaining strong client relationships and service satisfaction.
- Manage daily business operations including sales, inventory management, pricing, and customer engagement.
- Utilize social media and digital platforms to promote services and attract new clients.

Lead Backend Engineer

NulltoNode Devs, Lagos, Nigeria ***2026 – Present***

- Lead backend architecture, API design, and server-side development for client-facing web and mobile product applications.
- Build scalable RESTful APIs and microservices using Node.js, Express.js, MongoDB, and PostgreSQL.
- Develop and maintain CI/CD pipelines and containerized deployments using Docker and Vercel.
- Collaborate with frontend engineers and designers to deliver full-stack products from concept to deployment.
- Develop curriculum and deliver hands-on backend development training sessions for junior developers and interns.
- Contribute to technical decision-making, code reviews, and engineering best practices across the team.

IT Support Intern / Technical Assistant
iFix Computers and Phones Tech Ltd, Ijebu-Ode, Ogun State ***April 2025 – August 2025***

- Assisted in advanced diagnosis and repair of computer hardware and software systems, including desktops, laptops, and peripherals.
- Supported installation, configuration, and optimization of operating systems (Windows/Linux) and productivity applications.
- Performed system maintenance tasks such as virus removal, OS updates, driver installation, and performance tuning.
- Participated in hardware component replacement including RAM, hard drives, motherboards, and power units.
- Provided frontline technical support to customers, resolving hardware and software complaints efficiently under supervision.
- Assisted in basic network configuration and troubleshooting of connectivity issues in office and client systems.
- Maintained technical documentation of repairs, diagnostics, and service logs for accountability and reference.
- Collaborated with senior technicians in handling multiple repair projects and meeting strict service deadlines.

Sales & Technical Support Representative
Ringo Telecommunications Ltd, Lagos, Nigeria ***November 2022 – March 2023***

- Delivered frontline sales support for telecommunications products including SIM cards, data plans, airtime, and mobile devices.
- Provided technical assistance to customers on SIM registration (KYC compliance), device setup, and basic network troubleshooting.
- Consistently achieved and exceeded monthly sales targets through strategic upselling and customer engagement techniques.
- Managed cash transactions, prepared daily sales reports, and ensured accurate financial reconciliation.
- Maintained up-to-date knowledge of product offerings, promotions, and service updates to provide accurate customer information.
- Strengthened customer retention through effective communication, complaint resolution, and after-sales support.
- Ensured proper merchandising and product display to enhance visibility and improve customer purchase experience.
- Collaborated with team members to drive branch performance and improve overall service delivery standards.

Software Developer (Freelance)
Self-Employed, Lagos, Nigeria ***2025 – Present***

- Developed university management and student portal prototypes using JavaScript and React.
- Built custom web applications for local small business clients.
- Gained hands-on full-stack development experience through real-world projects during university studies.

PROJECTS

PORTFOLIO WEBSITE — Personal Portfolio
Technologies: Next.js 16, React 19, TypeScript, Tailwind CSS v4, Resend, Framer Motion

- Built a responsive, animated portfolio with light/dark theme, contact form with Resend email delivery, and SEO optimization.
- Implemented server-side Zod validation, rate limiting, and server actions for secure form handling.
- Deployed on Vercel with Vercel Analytics and Google Search Console integration.

TASKFLOW — Task Management Platform
Technologies: Next.js, React, TypeScript, Prisma, PostgreSQL, Socket.io

- Built a real-time task management platform with drag-and-drop boards, role-based access, and analytics dashboard.
- Implemented WebSocket-based real-time collaboration across multiple clients with data consistency.

CRYPTOVAULT — Cryptocurrency Portfolio Tracker
Technologies: React, TypeScript, Node.js, Express, MongoDB, Redis, Chart.js

- Built a client-side encrypted portfolio tracker connecting to major cryptocurrency exchanges via secure APIs.
- Designed real-time price tracking, portfolio analytics, and price alert notification system.

DEVMETRICS — Developer Analytics Dashboard
Technologies: Next.js, React, TypeScript, GraphQL, GitHub API, Recharts

- Built an analytics dashboard that aggregates GitHub activity, commit patterns, and language usage into visualizations.
- Implemented activity heatmaps, contribution streaks, and exportable productivity reports.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science ***2023-2026***
Pinnacle African University (PAU-BENIN), 03 BP 266 Houinme-Apity, Porto Novo, Benin Republic.

SKILLS AND COMPETENCIES

Web Development & Software Engineering

- **Frontend Development (HTML5, CSS3, JavaScript, React.js, Next.js):** Skilled in building modern, responsive, and user-friendly web interfaces optimized for performance, usability, and cross-device accessibility.
- **Backend Development (Node.js, Express.js):** Capable of developing scalable server-side applications, handling business logic, and building efficient RESTful APIs.
- **Database Management (SQL, MongoDB):** Experienced in designing, structuring, and managing SQL & NoSQL databases for dynamic, scalable, and data-driven applications.
- **Version Control (Git & GitHub):** Proficient in collaborative development workflows, source code management, and version control using Git-based systems.

IT Support & Technical Operations

- **Hardware Troubleshooting & Maintenance:** Strong ability to diagnose, repair, and maintain laptops, desktops, and mobile devices at both component and system levels.
- **Software Installation & System Configuration:** Experienced in installing operating systems, drivers, applications, and optimizing system performance.
- **Technical Support & User Assistance:** Skilled in providing effective end-user support, resolving technical issues, and ensuring smooth IT operations in real-time environments.
- **Basic Networking & Connectivity Support:** Capable of configuring and troubleshooting network issues, including internet connectivity and device communication problems.
- **CCTV Installation & Maintenance:** Competent in basic installation, configuration, and maintenance of surveillance systems for security monitoring.

Digital Tools & Productivity Systems

- **Microsoft Office Suite (Word, Excel, PowerPoint):** Proficient in documentation, data entry, reporting, and professional presentation design.

- **Google Workspace:** Experienced in collaborative tools such as Docs, Sheets, Drive, and Gmail for productivity and teamwork.
- **Development Tools (VS Code & Debugging Tools):** Skilled in using modern IDEs and debugging tools for efficient coding, testing, and development.
- **Communication & IT Tools:** Effective use of email platforms and digital communication systems for professional engagement.

Business & Customer-Facing Competencies

- **Customer Relationship Management:** Strong ability to build trust, manage client needs, and maintain long-term customer satisfaction.
- **Sales & Digital Marketing Awareness:** Experienced in product promotion, upselling, and leveraging digital platforms for business visibility and growth.
- **Business Operations & Management:** Capable of handling daily operations including inventory control, pricing, financial tracking, and service delivery.
- **Problem-Solving & Analytical Thinking:** Excellent at identifying technical and operational challenges and delivering efficient solutions.

Professional & Personal Attributes

- **Adaptability & Fast Learning:** Quickly adapts to new technologies, tools, and work environments with minimal supervision.
- **Attention to Detail:** Ensures accuracy in coding, troubleshooting, documentation, and service delivery.
- **Teamwork & Collaboration:** Works effectively both independently and in team-based environments.
- **Communication Skills:** Clear and professional communicator with the ability to simplify technical concepts for users.
- **Time Management & Efficiency:** Strong ability to prioritize tasks and deliver results under pressure.
- **Professional Ethics & Confidentiality:** Maintains integrity and confidentiality in handling client and system information.
